

A.E.D Course

Description.

This course is for those who need to use a defibrillator. Use of defibrillators are becoming more common through a number of different workplaces. The use of a defibrillator will increase the chances of survival for those suffering cardiac arrest which is currently the biggest killer in the U.K.

Duration

The course is usually a 4 hour course.

Syllabus

The syllabus covers a wide range of subjects including :

- Assessment of the situation
- Responsibilities
- Dealing with an unconscious casualty
- Resuscitation
- Heart Conditions
- Resuscitation Council Guidelines

Macleod Training, can also provide additional training in areas not listed, please contact for a comprehensive list of the syllabus and any other topics you require.

Certification

Upon completion of the course delegates will be awarded an Emergency First Aid certificate. Valid for 1 year.

Numbers

A maximum of 6 delegates per trainer as per resuscitation council

Location

Course can be run onsite, subject to suitable training facilities. This will reduce costs if a number of employees need to attend. Please contact for pricing.
